

**EVERUN AFRICA**

ELECTRIC WHEEL LOADER

# EREL1000

72V/200Ah lead acid battery, zero engine emission and no pollution.

Passed CE quality certification.

The small size can work in a small limited space, and is flexible in operation.

Multi-options for attachments.

Standard configuration with Quick Hitch and Electric Joystick, easier to operate.

Lifting Height - 3053mm

Maintenance-Free Batteries makes later use more convenient and more secure.

Rated Load - 900kg

### Performance:

Rated Load	900kg
Bucket Rated Capacity	0.26m <sup>3</sup>
Primary Loading Height	1821mm
Dumping Height(Not Extend Boom)	2147mm
Secondary Loading Height	3620mm
Max. Dump Height	2714mm
Max. Grade Ability	20
Oscillation Angle	8°

### Dimensions & Weight:

Overall dimension (L×W×H)	3822*1270*2380mm
Bucket Width (overall)	1200mm
Wheel Base	960mm
Min. Ground Clearance	210mm
Net Weight	2310kg

### Battery:

Battery Model	3-EVF-200A
Rated Capacity	200Ah
No. Of Batteries	12
Rated Voltage	72V
Working Hours	4h

### Transmission System:

Transmission	Hydraulic System
Motor Type	YQP5.72AF.48P
Voltage	72V
Power	5000W
Displacement	14ml/r

### Steering System:

Type of Steering Hydraulic System	Full Hydraulic Steering
System Pressure	16MPa
Type of Steering Pump	External Gear Pump
Steering Cylinder Bore	Ø65mm
Qty	1pc

### Braking System:

Service Brake	Drum Brake
Brake Drum	240mm
Parking Break	Drum Brake

### Tyres:

Type	29*12.50-15
Working Pressure	0.3MPa
Qty	4

### Oil Capacity:

Hydraulic Oil Tank	40L
Brake Fluid	0.8L
